

LED Overhead Lights

Our LED lights have a sleek, modern design and are available in two- and four-bulb options. Light housing comes in black only; mounting brackets and tool track can be powder-coated to match workstation uprights.

Benefits of LED lights versus fluorescent:

- ✓ Better focused light
- ✓ 45% more energy efficient
- ✓ 50,000-hour lamp life; nearly 16 years
- ✓ No UV light emission; easier on eyes

- Provides additional lighting directly over work surface
- Includes "L" bracket and tool track for mounting light
- Support extends up to 18" from uprights
- 2-bulb is available in 56" long housing
- 4-bulb is available in 32" and 56" long housing
- Optional parabolic filter directs light over the work surface (shown in inset)
- Pair with power bar PBHM08 for convenient on/off feature
